Certificate of compliance to ROHS for RECOM DC/DC converters

Hereby we certify that RECOM DC/DC converters in SMD package are designed and manufactured fully compliant to the ROHS regulation (EU-2002/95/EG). Inside these converters there is high temperature solder used with >85% Pb so it meets the ROHS's exemption No.7.

Geschäftsführer:
K.M. Bier, Dipl.-Ing.

"7. Lead based alloys containing 85% by weight or more lead, lead in solders for servers, storage and storage array systems network infrastructure equipment for switching, signalling, transmission as well as network management for telecommunications, lead in electronic ceramic parts (e.g. piezoelectronic devices)."

Testreports approving that the other 5 materials restricted in ROHS (Hg, Cd, Cr-VI, PBBs, PBDEs) are within the prescribed limits will be available soon.

Testreports for RECOM DC/DC converters in through-hole-packages are already available from RECOM customer support service or can be downloaded from the RECOM website.
